PREFACE.

The present Proprietors of this ancient and extensive NURSERY, beg leave, through the medium of a new Catalogue, to announce to its former patrons and also to the public generally, not only the change in ownership, but, as stated on the title page, the principles upon which they intend to conduct the establishment; and they respectfully solicit that patronage which they will strive to merit. Being one of the oldest Nurseries in the United States, founded upwards of half a century since, and great pains and expense having for a long series of years been bestowed by the late proprietors in procuring and cultivating every thing that was valuable, it no doubt contains at the present time a more extensive collection of Trees, Shrubs, Plants, &c., variety as well as quantity being considered, than can be found elsewhere in the United States.

Most of the varieties of Ornamental Trees can be furnished of extra large size, suitable for planting in streets or avenues, the prices of which will be in proportion.

The assortment of Ornamental Evergreens, such as Spruces and Firs, is very extensive, many of which are of an extra large size, and with proper care can be removed with safety a reasonable distance.

Such persons as require fruit trees, &c., and are desirous of having a succession of fruits, but are not themselves acquainted with the qualities of the different kinds, by stating the number of trees required and leaving the selection to the conductor of the establishment, they can depend upon having such kinds as are most suitable; and larger trees can generally be selected in such cases.

Where trees are requested for exportation, they are carefully packed in matted bundles or boxes, so as to be sent to Europe, the West Indies, or any part of America, with perfect safety, for which a reasonable charge is made.

The prices have been greatly reduced on a large number of articles, and the average throughout the catalogue will be found as low, and in general much lower, than the same articles, equally genuine and of equal quality, can be obtained elsewhere.

As in so old and extensive an establishment an extra stock of some articles will necessarily accumulate, and it being intended partially to rearrange the Nursery during this fall and the ensuing spring, which will require considerable transplanting, purchasers who may find it convenient personally to visit the Nursery and select from such stock, will be supplied the same at a very

considerable reduction from the present catalogue prices. A liberal discount will always be made on large orders. Persons disposed to act as Agents for the establishment in other places, are requested to communicate their views on the subject.

All packages are delivered at Fulton market wharf, New-York, by water free of freight; and when desired by persons at a distance, they will be shipped to any port they may designate. No care will be wanting on the part of the proprietors, to give such directions as will cause them to arrive safely; but it is expressly understood that after being thus delivered or shipped at New-York, they are wholly at the risk of the person who ordered them. Insurance against loss by sea will be effected whenever requested.

Catalogues may be obtained gratis by direct application to the proprietors of the establishment, and to whom all orders should be directed. It is requested that persons at a distance, with whom no acquaintance exists, will in forwarding orders, otherwise than through an agent of the establishment, designate some person in New-York who will be responsible for the payment, otherwise tender a suitable reference. Letters requiring information will be promptly replied to.

Osage Orange, or Maclura, for hedges, $30 00 per 100.
Chinese arbor vitæ, small for hedges, $15 00 per 100.
Privit or Prim, for hedges, $6 00 per 100
Honey Locust, or Three thorned Acacia, $5 00 per 100.
Red Cedar, for hedges, $10 00 per 100.

Scions of all kinds of Fruit Trees, suitable for grafting, will be supplied at 50 cents per dozen. Also, Scions of Grapes, Currants, Gooseberries, Raspberries, Berberries, Mulberries, Quinces, Figs, Poplars, and Willows, of the fine species Osiers, most celebrated for basket-making, will be supplied at prices in proportion to their respective value; but no charge is made of a less sum than the price of a tree of the same kind. Where a large number of scions are wanted of the more plentiful sorts of Fruits, &c. they will be supplied by the 100 or 1000, at reduced rates. It is better such orders should be sent in the fall or winter.

ORNAMENTAL FOREST TREES.

91 Smith's new do $2 Smithii

HARDY ROSES. *Rosa.*

This favorite flower has been cultivated to such an extent in Europe, that it combines almost every tint of which nature is susceptible, and some of their collections contain above 1400 superb varieties. The following have been selected on account of their fragrance, size, beauty, singularity, or delicacy, and the original plants of many of these kinds cost from $1,50 cents to $4,75 cents each, exclusive of the expenses and losses attending the importation. The various kinds of roses, present a great diversity in respect to size as well as other points; some being naturally of very tall stature, others of medium height, and others quite diminutive. All the following Roses will endure the winters of any part of the Union without protection, with the exception of a few of the China roses. They have been critically examined when in flower, and the remarks as to their qualities are the result of the personal observation of the proprietors. These roses are almost wholly on their *own bottoms*, a few of the most rare kinds only being innoculated, and the *prices are lower than ever before offered to the public.*

Those marked thus * are 25 cents each. † are 37½ cents each. ‡ are 50 cents each. || are 75 cents each. Those not marked are $1 each.

1 ‡Admirable, *extra superb*

Tree Roses.

These are budded on strong stocks, 3 to 4 feet from the ground, and form fine heads. They present the appearance of trees in miniature, and bloom profusely. Above 60 varieties can be supplied, comprising many kinds of Chinese Monthly, Noisette, Damask Monthly, or Four Seasons, and superior sorts of Provence Roses, &c. prices from $1 to $1,50, and extra large plants, $2 each.

PÆONIES.

No class of flowers has recently attracted more attention in Europe than this, a monograph of which has been published in London. Every variety will support the winters of the United States and Canada. Most of the varieties are extremely splendid, and others possess striking peculiarities. Anticipating that a similar taste would be evinced in this country, the proprietors have, by great exertion, obtained every variety possible.

1	Jagged leaved pæony	Pæonia anomala vel *lasciniata*	$ 75

CHINESE CHRYSANTHEMUMS.

Chrysanthemum sinense.

This superb flower (often denominated Artemisia) is deservedly esteemed; being perfectly hardy, and affording a most brilliant display, at a period when the chilling blasts of autumn have left us but the vestiges of departed verdure. It is therefore a subject of much gratification, that the number obtained from China exceeds 60 varieties, nearly the whole of which are offered to the public in this catalogue.

Those marked thus * 25 cents each, those not marked 50 cents each.

1 Aiton's yellow

Yellow Defiance, (Cox) fine yellow	4—0	2 00

BRIEF DIRECTIONS.

The Dahlia delights in a rich loamy soil ; let it be well worked, and they will soon make a rapid growth. Stake them, and tie up the branches as they proceed in growth. Take up the roots when the frost has killed the tops, and after drying them a few days, stow them away in the cellar, out of the way of frost, in sand or dry garden soil.

ASSORTMENTS.

Twelve very superb varieties	- - - - - - - - -	$15 00
